

# KAYAK TOUR

Our guided sea kayak tour is one of the best experiences offered in Zakynthos. We have chosen the best itineraries giving our clients the chance to discover the most beautiful and unique sights of the island.

There are three different itineraries available to choose from. The tour is possible to be arranged either private or shared with a group of up to 10 persons.

The duration of the tour is 3 and 1/2 hours and during each tour we make a stop on a secluded beach, explore secret sea caves but also visit popular destinations like the Blue Caves and Xigia beach (the natural spa of Zakynthos) on the north of the island and Marathonisi on the south.

All our guides are certified and experienced in sea kayak, but also passionate and always willing to share their local knowledge and expertise with our guests.

During the tour except from all the necessary equipment and safety measures, we also provide a local snack to all the participants. Also, free transfer is provided from specific areas on the island depending on the chosen itinerary and departure point.
